AUGUSTA — Maine's newest AmeriCorps members, hailing from the state and across the country, gathered virtually Nov. 15 to participate in the 27th annual Maine AmeriCorps Induction Ceremony.

The ceremony has been archived on the Volunteer Maine YouTube channel for those who could not view it live: youtu.be/0L1xvEw08.

Maine Supreme Court Associate Justice Andrew Mead presided over the ceremony and reading of the AmeriCorps Pledge, which new members recited to affirm their commitment to serving Maine communities.

"The AmeriCorps program is one of the best and clearest examples of what good people can do to bring forth the best of the spirit of the community for the common good," said Justice Mead to the more than 40 AmeriCorps members who were able to attend the afternoon ceremony, according to a news release from the organization.

AmeriCorps members serve in Maine to gain valuable skills while supporting community organizations in the areas of early childhood education and development, mentorship, environmental conservation, green energy education, expanding access to outdoor recreation, improving the lives of Maine's aging population, and community development.

The ceremony was held at the University of Maine at Augusta. The program was moderated by Justice Mead, with introductions by Maine Governor Janet Mills and U.S. Representative Robert Claitor.

AmeriCorps members will be working on projects throughout the state, including at the University of Maine, the Maine State Police, and various community organizations.

UMaine program offers food safety tips, recipes

ORONO — The University of Maine Cooperative Extension is offering various resources to help prepare a safe and healthy Thanksgiving meal.

The Extension has posted simple healthy recipes at extension.umaine.edu/food-safety-recipes that include all Maine produce in main dishes. Mainely Fresh recipe videos at extension.umaine.edu/healthyliving/recipes demonstrate a variety of ingredients in recipes for dishes that can easily substitute other proteins to replace meat.

Extension publications for a healthy holiday including "Healthy Hints for Handling Turkey for Thanksgiving" and "General Food Safety Tips for Preparing Food" also are featured in extension.umaine.edu/publications.

If turkey is on the menu, UMaine Extension specialists and registered dietitians Kelly Saville suggests planning for 1 to 1.5 pounds of

Courtesy of University of Maine Cooperative Extension. Tips for a healthy holiday, including "Healthy Hints for Handling Turkey for Thanksgiving" and "General Food Safety Tips for Preparing Food" are available at extension.umaine.edu/publications.

Courtesy of University of Maine Cooperative Extension. Turkey should be cooked to reach an internal temperature of 165 degrees to kill harmful bacteria. The temperature should be measured in the thickest part of the high end wing and the breast part of the breast with a food thermometer. Leftovers should be stored in airtight containers. Leftovers should be used within four days.

turkey per person, according to the Extension news release. This will provide enough for the meat and sides for the meal and still allow for leftovers. People can plan on half that amount if serving poultry or pork will be served.

The length of time it takes to thaw a turkey in the refrigerator depends on its size. People should plan on

24 hours per five pounds of turkey.

LOT

Lawyer: Page B1
The "Lot 4" parcel at the corner of Somerset St. and to pay just \$10 each to three liability companies for the property.
The city's actions "voided" a lawsuit, which asserted the plaintiffs' rights under the Federal Fair Housing Act and the Constitution and laws of the State of Maine. The suit, which also includes Federal and state law, was filed in Superior Court in August 2000. It accused the city of two counts of "taking without payment of just compensation" under the state and federal constitutions. The city asserts the new suit is meritless, as the city complied in all respects with the law governing eminent domain in

taking the Somerset Street lot for a long-term public parking garage. The city's decision to take the lot for a long-term public parking garage is a "public use" and is a "public purpose," the city's lawyer said in an email Monday. Volunteer Maine welcomes, celebrates new class of Maine AmeriCorps members during annual induction ceremony

by BDN Community
November 16, 2021

AUGUSTA — Maine's newest AmeriCorps members, hailing from the state and across the country, gathered virtually Monday, Nov. 15 to participate in the 27th annual Maine AmeriCorps induction ceremony.

Maine Supreme Court Associate Justice Andrew Mead presided over the ceremony and reading of the AmeriCorps Pledge, which each new member recites to affirm their commitment to serving Maine communities.

"The AmeriCorps program is one of the best and clearest examples of what good people can do to bring forth the best of the spirit of the community for the common good," shared Justice Mead to the more than 40 AmeriCorps members who were able to attend the afternoon ceremony.

CAMDEN

West Bay Rotary awards \$3,000 to One Less Worry

West Bay Rotary President Mark Coursey and District 7790 secretary Etienne Perret presented \$3,000 to executive director Sharon Hobson of One Less Worry to support its initiative to provide free eco-friendly menstrual cups to 300 low-income women in Knox County. These cups will save women hundreds of dollars and significantly reduce menstrual products going into the waste stream.

In accepting the donation, Hobson said, "Research shows that the average woman spends \$75 to \$100 a year for menstrual products. For a woman who is having a difficult time feeding a family, tampons and pads become an expense that is hard to afford. By supplying the free menstrual cups, the cost of menstruation drops to almost zero."

Hobson also noted that there is nothing environmentally friendly about traditionally purchased menstrual products, that typically come individually wrapped, with adhesive strips or with plastic disposable applicators, most of which also are made from synthetic materials like rayon or absorbent polymers that are often bleached to stay white. All-organic cotton alternatives are more expensive to buy.

One Less Worry is a grassroots organization that provides pads, tampons, and toilet paper to people in Knox County. While its product distribution is focused on local communities, its advocacy efforts have a far broader reach. For more information, go to: onelessworry.me.

Volunteer Maine celebrates new class of AmeriCorps members

Share [Facebook] [Twitter] [Reddit] [Email] [Print]

AUGUSTA — Maine's newest AmeriCorps members, hailing from the state and across the country, gathered virtually Nov. 15 to participate in the 27th annual Maine AmeriCorps Induction Ceremony.

The ceremony has been archived on the Volunteer Maine YouTube channel for those who could not view it live: youtu.be/o4L_xcvEw08.

Maine Supreme Court Associate Justice Andrew Mead presided over the ceremony and reading of the AmeriCorps Pledge, which new members recite to affirm their commitment to serving Maine communities.

"The AmeriCorps program is one of the best and clearest examples of what good people can do to bring forth the best of the spirit of the community for the common good," said Justice Mead to the more than 40 AmeriCorps members who were able to attend the afternoon ceremony, according to a news release from the organization.

AmeriCorps members serve in Maine to gain valuable skills while supporting community organizations in the areas of early childhood education and development, mentorship, environmental conservation, green energy education, expanding access to outdoor recreation, improving the lives of Maine's aging population, and community resilience, among others. Member benefits include a living allowance and a post-service education award.
